UNITED STATES DEPARTMENT OF AGRICULTURE

1941 Eggs and Egg Products. Cir. No. 583, USDA.

PENNINGTON, M. E.

1942 The Freezing of Eggs. U. S. Egg and Poultry Magazine, Vol. 48, No. 2, pp. 91-95, 127, 128.

STUART, L. S., and H. E. Goresline

1942 Studies of Bacteria from Fermenting Egg White and the Production of Pure Culture Fermentations. Jour. of Bacteriology, Vol. 44, No. 6, December 1942, p. 625.

GOESLINE, H. E., and Others

1943 Sanitation Pays Dividends to Egg Dehydrator. Food Ind. 15:90-101, July 1943.

HAWTHORNE, J. R.

1943 The Effect of Moisture Content on the Initial Quality of Spray-Dried Whole Egg and Deterioration during Storage. Jour. Soc. Chem. Indus. Trans. and Commun., Vol. 62, No. 9, pp. 135-137.

KLOSE, A. A., G. I. Jones, and H. E. Fevold

1943 Vitamin Content of Spray-Dried Whole Egg. Indus. & Engin. Chem. Vol. 35, No. 11, pp. 1200-1205.

PEARCE, J. A., M. W. Thistle, and M. Reid

1943 An Improved Fluorescence Method and Some Factors Affecting the Measurement. Canad. Jour. Res. 21, 1943, Sec. F, No. 11, pp. 341-347.

SCHWEITER, R., M. T. Bartram, and H. A. Lepper

1943 Bacteriological and Physical Changes Occurring in Frozen Eggs. Influence of Defrosting and Prolonged Storage on Bacterial Count and on Odor. Jour. Assoc. of Off. Agr. Chem. 26, 1943, pp. 172-182.

SCHALLER, P. J., and C. G. Card

1943 How to Produce Frozen Eggs That the Housewife Can Use. Food Industries, Vol. 15, May 1943, No. 1-6.

STEFFEN, A. H., E. W. Hopkins, R. W. Kline, and G. H. Whitzell

1943 A Chemical Method for Scoring Dried Whole Eggs. U. S. Egg and Poultry Magazine, Vol. 49, No. 7, pp. 308-310, 334-336.

STEWART, G. F., L. R. Best, and B. Lowe

1943 A Study of Some Factors Affecting the Storage Changes in Spray-Dried Egg Products. Inst. Food Technol. Proc., St. Louis, Mo., pp. 77-89.

WHITE, W. H., and M. W. Thistle

1943 Dried Whole Egg Powder; Effect of Heat Treatment on Quality.  
Canad. Jour. Res. 21, Sect. D, No. 7, pp. 194-202.

1943 Dried Whole Egg Powder; Effect of Moisture on Keeping Quality.  
Canad. Jour. Res. 21, Sect. 4, No. 7, pp. 211-222.

WHITE, W. H., and G. A. Grant

1943 Dried Whole Egg Powder; Refractometric Method for the Determination  
of Solubility. Canad. Jour. Res. 21, Sec. D, 203-210, July 1943.

WHITE, W. H., M. W. Thistle, and M. Reid

1943 Effect of Storage Temperature and Gas Packing on Keeping Quality  
of Dried Egg Powder. Canad. Jour. Res. 21, 1943, Sect. 4,  
No. 9, pp. 271-276.

WILSON, R. V., and H. M. Slosberg

1943 Grading Dried Eggs. U. S. Egg and Poultry Magazine, Vol. 49,  
No. 1, pp. 20, 21, 42-47.

WOODCOCK, A. H., and M. Reid

1943 Effect of Drying Conditions on Quality. Canad. Jour. Res. 21,  
1943, Sect. F, No. 12, pp. 389-393.

BUMZABNOV, A. D.

1943 Dehydration of Egg Products. Egg and Poultry Magazine, Vol. 50,  
No. 5, pp. 198-202, 231, 234-236. (Continued in Vol. 50, No. 6,  
pp. 259-262, 277, 282-285.)

BUSTER, M. W.

1944 Survey on the Use of Dried Egg Products. Egg and Poultry  
Magazine, Vol. 50, No. 12, p. 552.

DAWSON, E. H., and Others

1944 Effect of Storage on Flavor and Cooking Qualities of Spray-Dried  
Whole Eggs. U. S. Egg and Poultry Mag., Vol. 51, No. 4, pp. 154-161.

GIBBONS, N. E., and R. L. Moore

1944 Dried Whole Egg Powder. Occurrence and Distribution of Salmonella  
Organisms in Canadian Powder. Canad. Jour. Res., Vol. 22, March 1944.

GIBBONS, N. E., R. L. Moore, and C. O. Fulton

1944 Dried Egg Powder. XV. The Growth of Salmonella and Other Organisms  
in Liquid and Reconstituted Egg. Canadian Jour. Res. 22, F:169-173.

GOREGLINE, E. E., and V. H. McFarlane

1944 Handling Eggs for Drying. Egg and Poultry Magazine, Vol. 50, No. 3,  
pp. 116-119, 140-141.

MAUDE, S. M., F. P. Zacheille, and C. W. Carrick

1944 Homogenized Liquid and Dried Eggs; Stability of Vitamin A and  
Carotinoids during Dehydration and Storage. Indus. & Eng. Chem.,  
Vol. 36, No. 11, pp. 1065-1068.

- HAWTHORNE, J. W., and J. Brooks  
1944 Removal of the Sugar of Egg Pulp Before Drying: A Method of Improving the Storage Life of Spray-Dried Whole Egg. Jour. Soc. Chem. Indus. Trans. & Commun., Vol. 63, No. 8, pp. 232-234.
- LEPPER, H. A., M. T. Bartram, and H. Hillig  
1944 Detection of Decomposition in Liquid, Frozen, and Dried Eggs. Jour. Assoc. Off. Agr. Chem. 27:204-223.
- MC NALLY, E. H., and J. Dizikes  
1944 Dispersion and Denaturization of Spray-Dried Whole Egg Proteins. U. S. Egg and Poultry Magazine, Vol. 50, No. 8, pp. 361-363.
- PEARCE, J. A., A. H. Woodcock, and N. E. Gibbons  
1944 The Effect of Adding Substances on Keeping Quality; Dried Whole Egg Powder. Canad. Jour. Res., Vol. 22, Sect. 2, No. 2, pp. 34-38.
- THISTLE, N. W., W. H. White, M. Reid, and A. H. Woodcock  
1944 Effects of Low Temperature, Low Moisture Content, Carbon Dioxide Pack and Copper Contamination on Keeping Quality. Canad. Jour. Res. 22, Sect. F, No. 4, pp. 80-86.
- WHITE, H. W., and G. A. Grant  
1944 Dried Whole Egg Powder. Effect of Heat Treatment on Colour. Canad. Jour. Res., Vol. 22, March 1944.
- CRUICKSHANK, E. M., E. Kodicek, and Y. L. Wang  
1945 Vitamins in Spray-Dried Eggs. Jour. Soc. Chem. Indus. Trans. & Commun. 64 (1945) No. 1, pp. 15-17.
- FRISCHKNECHT, C.  
1945 Use of Dried Eggs in Ice Cream. U. S. Egg and Poultry Magazine, Vol. 51, No. 6, pp. 244-247.
- MC FARLANE, V. H., A. Watson, and H. E. Goresline  
1945 Microbiological Control in the Production of Spray-Dried Whole Egg Powder. U. S. Egg and Poultry Mag., Vol. 51, pp. 250-257, 270-286.
- MC FARLANE, V. H., and Others  
1945 Sanitation in Egg Drying. U. S. Egg and Poultry Mag., 51, pp. 364-6, August 1945.

1945 Sanitation in Egg Breaking and Drying Plants. Part 1. American Egg and Poultry Review, Vol. 6, No. 6, pp. 344, 348, 350-352.
- REID, M., and J. A. Pearce  
1945 Dried Whole Egg Powder. Objective Tests and Baking Quality. Canad. Jour. Res. F.23:239-242.
- STUART, L. S., and Others  
1945 Quality of Egg Powder Affects Rate of Change in Solubility. Food. Ind. 17: 154-156. February 1945.

1945 Effect of Storage Temperature on Bacteria in Egg Powder. Food Ind.  
17:1174-1175 and 1266-1274.

THISTLE, H. W., W. H. White, D. A. Fletcher, and J. A. Pearce  
1945 Dried Whole Egg Powder - Relative Stability of Powders of Different  
Quality. Canad. Jour. Res. F-23-104-108.

BOHREN, B. B., and S. M. Hauge  
1946 Vitamin Retention in Dried Egg As Affected by Compression and  
Packaging in Tin Cans. Food Res. 11:39-40, January 1946.

PEARCE, J. A., M. Reid, and W. H. Cook  
1946 Dried Whole Egg Powder. The Keeping Quality of Acidulated Gas-Packed  
Powders of Low-Moisture Content. Canad. Jour. Res. F, 24:39-46.

REID, M.  
1946 Liquid and Frozen Egg. Application of a Fluorescence Measurement  
to Liquid and Frozen Egg. Canad. Jour. Res. F, 24:130-135.

SCHNEIDER, M. D.  
1946 Investigation of Salmonella Content of Powdered Whole Eggs with  
Not More Than Two Percent Moisture Content: Effect of Preheater  
on Survival of Species of Salmonella during Commercial Spray  
Drying. Food Res. 11:521-524, November 1946.

1946 Investigation of Salmonella Content of Powdered Whole Egg with  
Not More Than Two Percent Moisture Content: General Survey on  
Occurrence of Species of Salmonella in High Quality Egg Powder.  
Food Res. 11:313-18, July 1946.

SOLOWEY, M., E. H. Spaulding, and H. E. Goresline  
1946 Investigation of a Source and Mode of Entry of Salmonella Organisms  
in Spray-Dried Whole-Egg Powder. Food Res. 11:(5) 380-390.  
September 1946.

THOMPSON, C. R., and Others  
1946 Chemical Determination of Vitamin A in Dried Whole Eggs.  
Ind. & Eng. Chem. anal. ed. 18:113-15, February 1946.

WINTER, A. R., P. A. Greco, and G. F. Stewart  
1946 Pasteurization of Liquid Egg Products. I. Bacteria Reduction in  
Liquid Whole Egg and Improvement in Keeping Quality. Food Res. 11,  
229-245.

WINTER, A. R., G. F. Stewart, V. H. McFarlane, and M. Solowey  
1946 Pasteurization of Liquid Egg Products. III. Destruction of  
Salmonella in Liquid Whole Egg. Amer. Jour. of Pub. Health 36, 451.

DAWSON, E. H., E. A. Wood, and E. H. McNally  
1947 Spray-Dried Whole Eggs Improved with Carbohydrates. Food Ind.  
19:483-486, 594-596.

GIBBONS, N. E.
